February 4th 2012

Through our sales of Lesley's Jewellery of Hope we donate 10% of the proceeds to <http://www.pennybrohncancercare.org> in Bristol.

They are pioneers in complimentary cancer care – the Bristol approach!

Everyone is affected by cancer in one way or another and with this in mind we've created a wonderful range of Swarovski elements, jewellery inspired by Lesley Kennedy's unique approach, courage and determination to fight this terrible disease.

Our pieces are handmade, in house, to order with each type of cancer represented by its unique, globally recognised colour. Using Swarovski Crystal elements, silver beads and clasps, hoops and dangles these pieces are made lovingly to the customer's specification and choice of colour combination. You may wish to highlight cancer in general, a specific cancer or combination of several cancer types.

Whether you choose to buy a piece from Lesley's Jewellery of Hope range at http://www.cleopatraswardrobe.co.uk/lesley%27s_jewellery_of_hope or make a donation to Penny Brohn Cancer Care, World Cancer Day or a cancer charity of your own choice. Spare a thought for World Cancer Day by signing their petition at <http://www.worldcancerday.org/wcd-home>

Let's help make a difference!
